CAREER OBJECTIVE

Motivated and enthusiastic 3rd year Computer Science & Engineering student with a strong academic background and hands-on experience in web development and software projects. Seeking an opportunity to apply technical skills, enhance professional expertise, and contribute to organizational success.

TECHNICAL SKILLS

Programming Languages: C, Python, PHP, Core Java

Libraries/Frameworks: Flask, JavaScript, jQuery, Basic React.js, Node.js, Bootstrap, CSS, HTML

Tools/Platforms: RESTful APIs, Git, MilesWeb, Streamlit, Netlify, Vercel, Clever Cloud, Render

Databases: MySQL, Microsoft SQL Server, MongoDB

WORK EXPERIENCE

Edusaint

Web Developer Intern

Oct 2025 – Present

Brahmapur, Full-Time

- Developed the backend for the **Byte Sized Learning App**, enabling efficient data processing and application functionality.
- Collaborated with the Flutter development team by designing and implementing **RESTful APIs** to ensure seamless integration between the mobile app and backend services.
- Managed application data using **MySQL**, including database design and query optimization.
- Integrated frontend modules provided by the development team with backend services to ensure smooth functionality.
- Deployed and maintained the application on **MilesWeb cloud**, monitoring performance and ensuring system availability.

PROJECTS

Attendance Management System

- Developed a web-based Attendance Management System using **PHP, HTML, CSS, JavaScript, and MySQL** to automate student attendance tracking.
- Designed and implemented responsive user interfaces for various kind of users using **HTML, CSS, and JavaScript** for easy attendance entry and viewing.
- Built **CRUD** operations for managing student records and attendance data.
- Optimized database queries to improve performance and reduce response time.

School ERP System

- Developed a web-based School ERP System using **HTML, CSS, JavaScript, Python, Flask, MySQL** to streamline management of student records and academic information like fees, exams, syllabus etc.
- Implemented the backend using **Python** with **Flask** framework to handle server-side logic and request processing.
- Developed authentication and login functionality to ensure secure access for various types of users.
- Followed modular coding practices to improve code maintainability and scalability.

EDUCATION

Rajiv Gandhi University of Knowledge Technologies - Nuzvid

Bachelor of Technology in Computer Science & Engineering (Expected May 2027)

Sept 2023 – Present

CGPA: 9.1

CERTIFICATIONS

- Cloud Computing - **IIT Kharagpur**
- Artificial Intelligence: Search Methods for Problem Solving - **IIT Madras**

ACHIEVEMENTS

- My project, **Attendance Management System** is going to be hosted on the **RGUKT Nuzvid campus server** for real-time use.
- Secured two paid internships in 3rd-year, 1st semester of my Engineering.
- Successfully working on multiple projects showcasing hands-on technical proficiency
