## CAREER OBJECTIVE

---

Motivated and enthusiastic final year Computer Science and Engineering student with a strong academic background and hands-on experience in RESTful API development using FastAPI, database optimization, and cloud management. Seeking an opportunity to apply technical skills, enhance professional expertise, and contribute to organizational success

## TECHNICAL SKILLS

---

**Programming Languages:** C, Python, PHP, Core Java

**Libraries/Frameworks:** : FastAPI, Flask, JavaScript, jQuery, Basic React.js, Bootstrap, CSS, HTML

**Tools/Platforms:** Milesweb, RESTful APIs, Postman, Cloudflare CDN, Git, Streamlit, Netlify, Clever Cloud, Render

**Networking:** DNS, TCP/IP, HTTP/HTTPS

**Databases:** MySQL, PostgreSQL, MongoDB

## WORK EXPERIENCE

---

### SAFiRi AI

Software Engineer Intern

May 2026 – Present

Remote, Full-Time

- Working on their project's essential features using React.js, FastAPI, PostgreSQL and Docker.

### Edusaint

Web Developer Intern

Oct 2025 – Apr 2026

Brahmapur, Full-Time

- Developed the backend for the live project of the company using **Flask**, improving API response time by **30%** and handling **1000+** user requests daily .
- Collaborated with the Flutter development team by designing and implementing **RESTful APIs** to ensure seamless integration between the mobile app and backend services.
- Implemented **Cloudflare CDN** to improve website performance and caching.
- Deployed and maintained the application on **MilesWeb cloud**, monitoring performance and ensuring system availability.

## PROJECTS

---

### Byte-Sized Learning App

- Developed backend services using **Python, Flask**, delivering structured educational content.
- Designed and implemented **RESTful APIs** for user **authentication, authorization** and course access.
- Optimized **MySQL** database queries to improve performance and reduce response time..
- Followed modular coding practices to improve code maintainability and scalability.

### Attendance Management System

- Developed a web-based Attendance Management System using **PHP, HTML, CSS, JavaScript, and MySQL** to automate student attendance tracking.
- Designed role-based modules (**Dean, Department Office, HOD, Teacher, Student**) with secure authentication and session management.
- Built dashboards for attendance monitoring, reporting, and analysis.
- Built **CRUD** operations for managing student records and attendance data.
- Designed the system to handle large-scale user data (approx. 2000 users) efficiently.

## EDUCATION

---

### Rajiv Gandhi University of Knowledge Technologies- Nuzvid

Bachelor of Technology in Computer Science & Engineering (Expected May 2027)

Sept 2023 – Present

CGPA: 9.0

## CERTIFICATIONS

---

- Cloud Computing- **IIT Kharagpur**
- Artificial Intelligence: Search Methods for Problem Solving- **IIT Madras**

## ACHIEVEMENTS

---

- Myproject, Attendance Management System is going to be hosted on the **RGUKT Nuzvid campus server** for real-time use.
- Successfully working on multiple projects showcasing hands-on technical proficiency.
